CORPORATE SUMMARY

Early-career Software Developer focused on delivering robust solutions through discipline and continuous learning. As someone with Asperger's Syndrome, I leverage hyperfocus and meticulous attention to detail as technical strengths when solving complex problems. My professional approach is grounded in ethics, resilience, and a constant pursuit of autonomy and excellence. I am committed to developing high-impact projects that combine personal integrity with technical rigor.

GOAL

Web Development | JavaScript & React

I am seeking my first opportunity at a Brazilian tech company where I can apply and expand my knowledge in frontend development using JavaScript and React. I aim to contribute precise technical solutions while leveraging my analytical focus and English fluency to collaborate effectively in dynamic and innovative environments.

STRATEGIC STACK

- JavaScript | React | Python | TypeScript
- Cloud & DevOps: Git
- Databases: MySQL, SQL
